"I also very urgently advise that a comprehensive act be passed providing Possible Revolution. to all employees injured in the Government service. Under the present law an injured workman in the employment of the Government has no remedy, and the entire burden of the accident falls on the helpless man, his wife and his young children. This is an outrage. It is a matter of humiliation to the nation that there should not be on our statute books provision to meet and partially to atone for cruel misfortune when it comes upon a man through no fault of his own while faithfully serv-

ing the public.
"The same broad principle which should apply to the Government should ultimately be made applicable to all private employers. Where the nation has the power it should enact laws to this effect. Where the States alone have the power they should enact the laws. It is to be observed that an em-

ployers' liability law does not really mean mulcting employers in damages. It merely throws upon the employer the burden of accident insurance against injuries which are sure to occur. It requires him either to bear or to distribute through insurance the loss which can readily be borne when distributed, but which, if undisturbed, bears with frightful hardship upon the unfortunate victim of accident.

"There is a special bill to which I cell your attention. Secretary Taft has urgently recommended the immediate age of a law providing for compensation to employees of the Government entting out the abuses will do the work of the Isthmian Canal, and that \$100,000 he appropriated his will be done, and that a speill be passed covering the case of Banton, who was injured
